- Tech. Session
- Raffle

25 Years of Green  
and Yellow tractor  
fun

1993-2018

John Deere L with snow  
plow

## The Old Model A that saved the Day

I think it was "The Fall of 1949", I was 13 years old. It was our Thrashing day at the farm. Old John Snow arrived with his big Rumely Tractor and his Massey Harris thrashing machine to contract the job. You could hear him coming a mile away with the crunching of the steel wheels on the gravel road and the explosions from the Old Rumely Tractor.

It never bothered old John as he was deaf as a stone Father always said. Father had to drive truck that day for Snyder Trucking Company so I was left in charge of our team of horses and wagon. Roy Petrie had his team and wagon. Mr. Appleyard had his John Deere A tractor and wagon. Thrashing began at 8 am Sharpe as old John demanded. So we could finish in time as he was thrashing at Dr. Roy Petrie's farm the next day.

I was on my second load of wheat sheaves at the separator and had just finished unloading when Old John signaled me to pump more kerosene into the Rumely from the 45 gallon drum on the ground. In a hurry and not thinking, I forgot to tie the reins to the front rack of the wagon. When I leaned down to do the pumping of Kerosene I heard the Rumely tractor let off a loud explosion that "spooked" my team of horses. The team took off with the empty wagon. I leaped aboard to take control but the reins were trailing on the ground so out the lane we headed. With me hollering "Whoa Whoa" you devils. Mr. Appleyard was about to enter the lane with a load of sheaves when he saw the runaway team and wagon and me hanging on for "Deere Life". He quickly throttled up the old "A" Model and blocked the lane with his wagon which stopped the

team without injury or serious damage to the wagon.

## John Deere 730 Goes Home

My uncle Carlton Kolstad Jr. past in May 2017 Every one in the family knew my uncle loved his John Deere 730. After his passing I inherited all the farm equipment. We both loved tractors. I held the tractor for 10 months trying to decide to keep my uncle's pride and joy or sell it. After good thought and feeling my past uncle's permission to sell the tractor I put it up on craigslist. I ran the add for a 3 months and had a for sale sign on her in the front lawn. Many local people came by. Then I would take it off the market not sure if to sell. Many people that knew my uncle came to talk to me. We would talk about how my uncle would not sell them the tractor when asked if he would sell it. I found out that this John Deere two cylinder model has thousands of followers through out the U.S. I made new friends with trying to sell the tractor locally. None more important then Jim Hayton, the one who called about the tractor. Jim told me his uncle bought it brand new when he was ten years old. My heart stopped. I have learned from the TV show American Pickers, if some one is willing to bring back history, restore it and enjoy using it. Sell it to that person even if you don't get as much as you asked. The show and the local farmers said if (continued on pg 2)

Happy New Year to everyone. Hope you had a safe and wonderful holiday season. Our Christmas dinner was well attended with lots of good food and fun.

Next meeting is Feb. 16th at the Sedro Woolley Museum, 10:00 AM. Elections of vice president, secretary, and three board members.

We will be planning our shop tour, plow day, Spring gas up and summer caravan, so get your tractors shined up and ready.

See you at the meeting.

Paul Hieb, President

(continued from pg 1) you can get a hold of the original owners or close to the first owners "sell it back " it's called . She's going back home. I was so happy that Jim found his uncle's tractor. My heart was sad to sell my uncle tractor that he loved so much. After talking to Jim a few times on the phone, I knew it was going to be OK. It was hard to let go. I took it off craigslist and put it back on a few different times. I was over my head with the size of the tractor 8000 lbs. running weight and close to 8 feet wide. When Jim came to get the tractor my uncle's younger brother was there, Mel Kolstad. Kenny Sager, the neighbor and dairy farmer up the road came down too. They both met Jim and had nice conversations. We all helped in loading of the tractor. The payment was given six weeks earlier. I held the tractor for Jim with just a hand shake. When Jim drove off to Skagit Valley with the 730 I felt like I lost a friend in a away. I was sad. I was also very happy that a family air loom found a good home. Now that the news paper reporter Leah called me and she was writing a story about the tractor coming home it left me with a feeling of being closer and two happy uncle's that get to see there tractor live again. A whole circle that came back around. You never know that maybe when I retire I can buy her back from Jim. **Article submitted by Gary Barnes**

*Meeting Minutes*  
**Cascade Two Cylinder Club  
 Board of Director's Meeting**

Board of Director's meeting held Jan. 16, 2019 at Loren Dahl's home.

**Meeting called to order** at 7:17pm by Paul Hieb Pres. Minutes of previous meetings read and approved.

**Treasurer's Report:** We have \$4876.53 on hand. The fee for our 501C3 nonprofit status is paid for 2019.

**Old Business** Pot Luck went well. We had plenty of food for the 100 people who attended. Jeff Newell's presentation on his trip to Prudoe Bay driving his 820 John Deere along with his friend on the Ford tractor was enjoyed by all. Tom is to be commended for his work to produce the charter member 25th anniversary plaques. No two are the same and they are fantastic! The club made \$441 on the silent auction and \$913 on the raffle.

**New Business:** Coming elections of officers and directors. VP Phil Smoots, Sec. Ray Riggles, Directors Gary Friend, Jeff Cowles and Loren Dahl. All have agreed to run again. Nominations for these positions will be opened from the floor at our next general meeting Feb. 16th, 2019. Tom suggested that we join the Sedro-Wooley Museum as a corporate sponsor for their expansion project. The cost is \$250. Motion made by Loren Dahl and second by

Con Holleman. Motion passed no opposition. Tom made a motion to return another \$2000 in seed money to the Puget Sound Club, to be earmarked for construction of the new Food Court construction at the Lynden Showgrounds, Berthusen Park. This would reduce the amount of seed money received from the Puget Sound Club to \$4000. Motion passed, no opposition.

**Coming Events:** Phil is working on a Shop Tour, date to be announced. Plow Day early May depending on the weather. Upcoming parades, Lynden Farmer's Day, Burlington Berry Dairy Days, Fourth of July; Sedro-Woolley, Arlington, La Conner and Veteran's Day, Burlington. Caravan 3rd Saturday in July. Next meeting February 16, 2019, 10 AM at the Sedro-Woolley Museum  
**Meeting adjourned** at 9:00 AM  
 Ray Riggles, sec.

THERE'S A JOHN DEERE  
 DEALER NEAR YOU—

HE WILL BE GLAD TO GIVE  
 YOU FURTHER INFORMATION

FRIENDLY SERVICE

## Separating the Chaff from the Grain

### Lynden Show

The 2019 PSAT&MA show “Vintage Farming Days” is featuring Steam Power. This should be a very exciting show with the steam saw mill, traction engines, cars and anything else steam powered. The new saw mill building will be done for show time. Plans are being made to build a permanent Food Court in the near future. This year’s show dates are July 31 to August 3.

### Norm teSelle

Norm’s JD AOS is featured in the John Deere section of the Steiner’s 2019 Tractor Parts catalog. Way to go Norm!

### Burlington Show Growing

The late September Burlington Pumpkin Toss and Harvest Festival attendance reached 8000 people in 2018. This is a kid friendly event so plan on kids climbing all over your tractor. Loren Dahl’s John Deere lawn tractor was the biggest tractor attraction so Loren is planning on bringing two this fall!

### Another Fuel Tank Opinion

Mr. Thinker from the Green Magazine got the question concerning winterizing the fuel system in our gasoline tractors. His response was to follow the operator’s manual suggestion of draining all fuel from the system. Deere says that if you don’t you will get a gummy substance in the carburetor. Oh really! He says if you don’t want to do that then at least fill the tank, add stabilizer and drain the carb. and sediment bowl.

### Need Special Fasteners in a Hurry?

Large local hardware stores handle many fastener needs but the unusual bolts and cap screws are hard to find. John Deere is one source for the Deere specific items. Fastenal can get many fasteners but they may need to be ordered. Tacoma Screw, located near the Burlington Harley Davidson dealer has a very large supply in stock. They claim to stock 80% of their catalog items. Their catalog is about 4 inches thick. They also don’t have a minimum order.

Another great source is Hardware Sales in Bellingham. If you have time, Correct Connections located in Rockport, PA has the square head bolts found on the old Deere tractors and equipment. They also sell the fastener kits for most two cylinder Deeres. What are your sources?

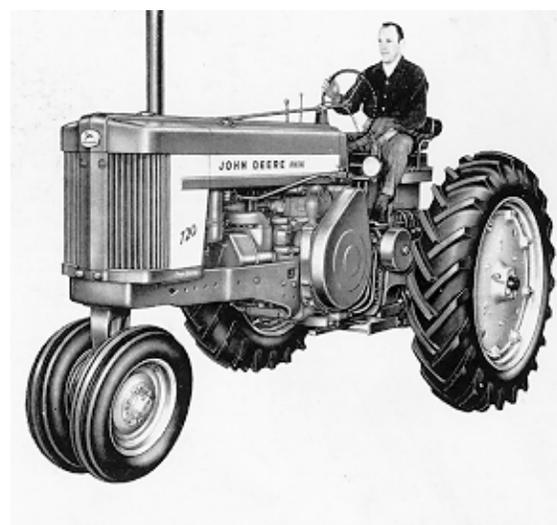

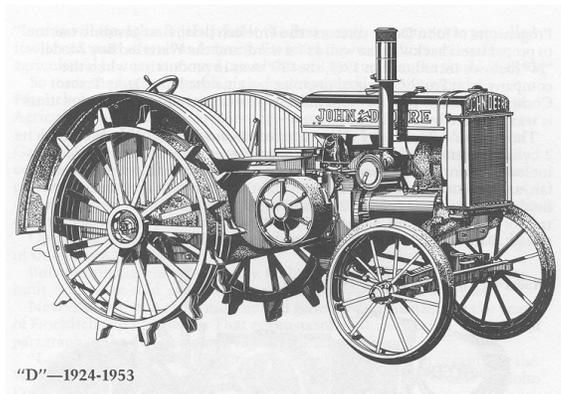

## Membership Dues

\$15/Year

**Please note!**

**2019 dues due January 1, 2019**

Please send your 2019 dues to **Tom Jensen, 202 Rainbow Drive, Burlington, WA 98233** or bring the money to the next meeting.

John Deere 720

## Green & Yellow Want Ads

*Please note that want ads will be run one time unless renewed. Ads need to be limited to five lines and will feature John Deere tractors or equipment. Other non tractor antiques ok if brief.*
